

Search Engine Marketing Fees

I offer four distinct on-line marketing services, in addition to the strategic marketing programs in the chart below. These services work well together, but you can choose one, two, three or all four.

SEO (Search Engine Optimization)

Submission to top search engines, link popularity development & open directory submission. This is a long term strategy where the goal is to get your site listed near or at the top in Google, Yahoo!, and MSN for a list of keywords. Based on your industry, competition, product and/or service this could be accomplished in as little as 3 months or can take as long as 2 years. It will require an ongoing investment (minimal) in subscribing to directories and developing incoming links to your website.

- **Investment-- \$2,500, plus an ongoing monthly maintenance fee of \$195**

On-Page Optimization

Following a detailed research of the source of success of your competitors' websites (those who rank high for similar keywords) I will fine tune the text of your web site along with the "invisible" code which search engines use to rank the listing of your web site in their directories.

- **Investment-- \$890**

PPC Placement and Management (Pay-Per-Click)

Includes:

- Industry and Product/Service Research
- Keyword Research
- Set up of Google PPC Advertising account
- Discuss and suggest monthly budget allocation based on your target market, niche, product or service
- Management and maintenance of the accounts for 3 months after initial set up to optimize and maximize strategy

- **Investment-- One time set up of \$1995, plus a monthly investment of \$250 for 3 months. Click charges are additional and paid directly to the search engines.**

Strategic Marketing Services

If you are facing tough competition and need help in taking your business to the next level, I offer strategic marketing services. These are strategic programs and systems designed to grow your business dramatically and position you or your company as the obvious choice to do business with in your market. The service starts with you filling out and submitting my questionnaire. I contact you within 3 business days to schedule a 1 hour full-tilt phone consulting session with nothing held back. The call is recorded and you receive a copy so you don't have to take notes—just concentrate on the discussion. If at any point in the first 15 minutes you do not feel you are getting your money's worth, you can say "stop" and owe me nothing. After minute 15 you're on for the whole ride.

- **Investment-- \$725 (Tactical execution and implementation of strategy-- if desired: By quote or you may choose from one of the four programs below.**

Systematized Strategic Marketing Programs

The chart below shows the [systematized marketing](#) programs I offer divided into four categories. The prices are based on the complexity of the research and work required. These strategic marketing programs are based on founded and proven direct marketing principles often referred to as scientific advertising. Unlike branding, scientific advertising is measurable and trackable so you can easily determine your ROI and know if your marketing is working or not.

If you are looking for institutional advertising or branding, my direct marketing programs are not for you. You are better served contacting any of the many advertising agencies that can help you with your branding efforts.

For a detailed explanation on scientific advertising and to better understand the difference between response-based marketing and branding [click here](#) to get my FREE Report. You can reach me via e-mail at frank@mymworks.com or call me at 786-333-1299.
